

PRODUCT LINE OVERVIEW: GE Industrial Control and Distribution Components

Please request for specific products not cataloged.

Control Components

General Purpose

Includes electrical control products ranging from push buttons to NEMA and IEC rated motor starters and more.

NEMA Rated Full Voltage Power Devices

- Magnetic Nonreversing Starters
- Magnetic Reversing Starters
- Magnetic Two-Speed Starters
- Magnetic Two-Speed Controllers
- Enclosures for NEMA Rated Full Voltage Starters
- Overload Relays for Panel Mounting
- Solid State Overload Relays for Panel Mounting
- NEMA Rated Full Voltage Manual Starters
- Pumping Panels
- Magnetic Nonreversing Contactors

Reduced Voltage Starters, Solid State

- Soft Starter
- Soft Starter Panels

Reduced Voltage Starters, Electromechanical

- Reduced Voltage Autotransformer Starters
- Reduced Voltage Wye Delta Starters
- Reduced Voltage Part Winding Starters

Lighting Contactors

Definite Purpose Controls

- Full Voltage Contactors
- Full Voltage Starters

IEC Power Devices

- Mini Contactors
- Contactors and Starters
- Assembled Starters

IEC Manual Motor Starters

Miniature Circuit Breakers

IEC Switches and Disconnects

Pilot and Signaling Devices

- Heavy-Duty 30.5 mm Watertight/Oiltight Push Buttons
- Heavy-Duty 22.5 mm Watertight/Oiltight Push Buttons

Logic Control

- General Purpose Relays
- Industrial/Machine Tool Relays
- IEC Electronic Timers
- IEC Protective Relays

Specialty Control Devices

- Industrial Strongbox Solenoids
- Heavy Duty AC and DC Solenoids
- Pressure Switches
- Vane-Operated Limit Switches
- Magnet-Operated Limit Switches
- Geared Rotary Limit Switches
- Precision Snap-Acting Limit Switches

Terminal Blocks

- DIN-Rail Mounted Terminal Blocks
- Panel or Mounting Track Terminal Blocks
- Panel or Mounting Track Terminal Blocks – Sectional
- Panel or Mounting Track Terminal Boards

Enclosures

- Enclosures for Non-Hazardous Locations
- Enclosures for Hazardous Locations
- IEC Enclosure Protection
- Non-Metallic Enclosures

Control Renewal Parts

Transformers

- Machine Tool
- CE-Rated
- Dry-Type/Cased

Drives

- Micro Drives
- General Purpose Drives
- Fan and Pump Drives
- Enclosed Drive Panels

Distribution Components

Low and Medium Voltage Components and Equipment

Includes electrical distribution products ranging from low voltage residential load centers to sophisticated medium and high voltage equipment.

Residential

- Load Centers
- Modular Metering
- Structured Wiring
- Bath Fans and Accessories
- Door Chimes

Safety Switches

- General Duty
- Heavy Duty
- Mill Duty
- Double Throw Switches
- Special Purpose
- Definite Purpose
- AC Disconnects
- Accessories:
 - NEMA Type 1 and 3R Enclosures
 - NEMA Type 4/4X and Mill Duty Enclosures
- Additional Accessories
- Low Voltage Construction Fuses

Molded Case Circuit Breakers

- Industrial Circuit Breakers
- Q-Line Circuit Breakers
- Thermal Magnetic Trip
- Replacement Breakers
- Internal Accessories
- Spectra® RMS
- Accessories for Spectra® RMS Circuit Breakers
- Molded Case Switches
- Special Purpose – Mine Duty Circuit Breakers
- Record Plus® Circuit Breakers
- External Accessories

Circuit Breaker Enclosures

- NEMA Type 1 Enclosures
- NEMA Type 3R Enclosures
- NEMA Type 12 Enclosures
- NEMA Type 4/4X Enclosures
- Hubs and Other Accessories

Insulated Case Circuit Breakers

Low Voltage Power and DC Circuit Breakers

- EntelliGuard®
- WavePro Circuit Breakers
- Trip Units
- Trip Unit Conversion Kits
- Asbestos Free Arc Quencher Replacement Kits
- Electrically Operated Racking Device
- Gerapid High Speed DC Circuit Breakers

Disconnect Switches and Operating Mechanisms

- Premium Duty, Heavy Duty
- Handle Operators
- General-Duty
- Handle Mechanism
- High-Pressure Contact Switch
- Fusible IEC Style
- DILoS Nonfusible Vu-Break IEC Style

Transformers

- General Purpose
- K-Factor
- K-Factor Low Noise
- Low Noise
- Noise Isolation – Guard I
- Noise Isolation – Guard II
- Harmonic Mitigating – Guard III
- Ultra Energy Efficient
- Servicenter Mini-Unit Substations
- Integral Transformer and Distribution Center
- Totally Enclosed, Nonventilated
- Midtapped
- Drive Isolation
- Accessories and Lugs
- Enclosure Parts
- General Purpose Transformers in Enclosures
- Buck-Boost Encapsulated Transformers
- Open Core and Coil Transformers

Switchboards

Capacitors, Arresters and Harmonic Filters

Panelboards

- A-Series® and Spectra® Series Panelboards

Busway

- Spectra® Series Busway, Sandwich Bus
- Spectra® RMS Busway, Sandwich Bus
- Spectra® Series Busway, Low Amp
- Flex-A-Power® Busway
- LW Busway
- Armor-Clad Busway
- Type DE Busway

Motor Control Centers — Low Voltage

- EVOLUTION SERIES E9000®
- Fastrac Program – MCC Units
- CR8000 and Spectra®

Switchgear — Low Voltage

- AKD-10 Low-Voltage Switchgear
- AKD-20 Low-Voltage Switchgear
- Arc Vault™ Arc Flash Protection System
- Entellisys® Low-Voltage Switchgear

Medium Voltage Equipment

- MV One Line
- Motor Control – Medium Voltage (Limitamp®)
- Switchgear Type – PowerVac
- Switchgear Type – PV System 27 and PV System 38
- Switchgear Type – Arc Resistant
- Metal Enclosed Load Interrupter Switches
- Current-Limiting Power Fuses

Power Quality Products

- Uninterruptible Power Supplies
- Digital Energy™ IT Series, Rackmount
- Digital Energy™ IT Series, Tower
- Surge Protection (TVSS)
- Automatic Transfer Switches
- Paralleling Switchgear

Telecommunication Hardware

- Fiber Closure Hardware
- Cable Location Surge Protectors

Multilin – Protection and Control

- Generator Protection
- Transformer Protection
- Transmission Line Protection
- Bus Protection
- Distribution Feeder Protection
- Motor Protection
- Specialized Protection, Control and Recording
- Single Function Protection Relays
- Single Function Auxiliary Relays

Multilin – Communications

- Multiplexers and Ethernet Switches
- Media and Protocol Converters

Multilin – Power Sensing

- Instrument Transformers

Multilin

- Digital Metering, Accessories and Switches
- Test Equipment, Terminal Blocks and Indicator Lights
- Software EnerVista® Suite

Meters and Instrument Transformers

- Three-Phase Metering
- Instrument Transformers

Distribution Transformers

*— Medium and High Voltage

- Secondary Substation
- Three-Phase Padmounted
- Single-Phase Pole-Mounted – POLES
- Network Transformers and Voltage Regulators
- Bushing Potential Devices

Solar Balance of System Electrical Components EverGold™

- Solar Duty Recombiner and Combiner Boxes, Disconnects

Electric Vehicle Charging Stations

- WattStation™ Wall Mount
- DuraStation™ EV Charger an RFID
