

Miniatur-Leuchtröhren
(Starter erforderlich)

USA/CDN MINIATURE FLUORESCENT LAMPS
(Starter Required)
PREHEAT

Miniature preheat fluorescent lamps are used in transport, emergency lighting, handlamps, traffic direction lighting and build-in furniture. Miniature lamps are available from 4 to 13 Watt, have a T5 tube (15.9mm dia.) and G5 miniature BiPin base. NOTE: Preheat fluorescent lamps require use of starters.

Watt	Lamp Ref. / Base	Description	Length/Diam.	Cat.No.	Wgt. ea	UPE/Pack	EDP No
