

Industrial Specification Grade  
Back and Side Wired Receptacles

15A and 20A, 125V 60Hz AC

With steel strap (one-piece brass strap available upon request).  
Single version of these receptacles available upon request.

Impact-resistant thermoplastic nylon.  
Back and side-wiring options, with 8 deep-funnel back-wiring holes that accept #10-14AWG. Meet requirements of Federal Specification WC-596 and are full compliance with NEMA Standard WD-2, WD-6, ANSI and UL 498 standards. They are CSA Certified where applicable, and meet Mexican NOM standards.
