

LIQUIDTIGHT CONDUIT AND CORD CONNECTORS STEEL/MALLEABLE IRON - STRAIGHT CONNECTORS

Applications

- For use in outdoor or indoor locations on flexible metallic liquidtight conduit and Type B flexible nonmetallic liquidtight conduit
- Use to positively bond the conduit to a box or enclosure
- These liquidtight connectors are suitable for use in Class 1, Division 2; Class 2, Division 1 and 2; and Class 3, Division 1 and 2 hazardous locations

Product Features

- Patented split gland-ring is designed to slip onto the conduit quickly and to grip the jacket of the conduit, speeding installation, assuring a perfect seal, and preventing pullouts
- Screw machined bodies (straight through 1") and precision threaded malleable iron castings mate with other components perfectly without strain or distortion
- All components are reusable — these liquidtight connectors may be easily disassembled and reused after years of service
- Sealing washer (included) provides a liquidtight seal when terminating the connector in a threadless opening
- Heavy duty locknut included with every liquidtight connector assures continuity of ground
- All metallic components are zinc electro plated for added corrosion protection
- UPC bar coded fittings are individually polybagged with a preprinted UPC-A bar code and packaged in pre-scored tear top cartons for an attractive presentation

Compliances

-  - Standard 514B
-  - C22.2 #18

LIQUIDTIGHT CONDUIT AND CORD CONNECTORS STEEL/MALLEABLE IRON - STRAIGHT CONNECTORS GROUNDING TYPE

Applications

- For use in outdoor or indoor locations on flexible metallic liquidtight conduit, when installation of a copper or aluminum external bonding jumper is required
- These grounding liquidtight connectors are suitable for use in Class 1, Division 2; Class 2, Division 1 and 1; and Class 3, Division 1 and 2 hazardous locations

Product Features

- Patented split gland-ring is designed to slip onto the conduit quickly and to grip the jacket of the conduit, speeding installation, assuring a perfect seal, and preventing pullouts
- Screw machined bodies (straight through 1") and precision threaded malleable iron castings mate with other components perfectly without strain or distortion
- All components are reusable — these liquidtight connectors may be easily disassembled and reused after years of service
- Sealing washer (included) provides a liquidtight seal when terminating the connector in a threadless opening
- Heavy duty locknut included with every liquidtight connector assures continuity of ground
- All metallic components are zinc electro plated for added corrosion protection

LIQUIDTIGHT CONDUIT AND CORD CONNECTORS STEEL - SEALING WASHERS

Application

- For use whenever a positive seal is required between the shoulder of a fitting and an enclosure

Product Features

- One-piece construction assures proper installation — no need to worry about aligning multiple components
- Steel ring is zinc electro plated for added corrosion protection
- UPC bar coded fittings are individually polybagged with a preprinted UPC-A bar code and packaged in pre-scored tear top cartons for an attractive presentation

Compliances

-  – Standard 514B
-  – C22.2 #18

LIQUIDTIGHT CONDUIT AND CORD CONNECTORS NONMETALLIC - TYPE B CONDUIT AND CONNECTORS

Applications

- For use in dry or wet locations when the conduit and fittings are not subject to physical damage
- Use Type B conduit and fittings whenever flexibility is required for installation, operation, or maintenance

Product Features

- All gray nonmetallic construction ends metal fatigue and separation problems
- Conduit cuts cleanly — speeds installation and ends the worry of jagged edges
- Each connector is supplied with a Neoprene o-ring and nylon locknut
- UPC bar coded fittings are individually polybagged with a preprinted UPC-A bar code and packaged in pre-scored tear top cartons for an attractive presentation

Compliances

-  – Standard 1660 (conduit); Standard 514B (fittings)
-  – C22.2 #18

LIQUIDTIGHT CONDUIT AND CORD CONNECTORS NONMETALLIC - SWIVEL LOK® CONNECTORS FOR TYPE B NONMETALLIC CONDUIT

Swivel Lok® and 90 Degree Connectors Applications

- For use in dry or wet locations when the conduit and fittings are not subject to physical damage
- Use Type B conduit and fittings whenever flexibility is required for installation, operation, or maintenance

Swivel Lok® and 90 Degree Connectors Product Features

- All gray nonmetallic construction provides superior corrosion resistance
- Each connector is supplied with a Neoprene O-ring and nylon gasket

Swivel Lok® Connectors Product Features

- Swivel Lok®, multi-position connector (trade sizes 3/8" to 1") twists from 0° to 90°, easing installation in difficult locations and eliminating need to stock other angle connectors
- UPC bar coded fittings are individually polybagged with a preprinted UPC-A bar code and packaged in pre-scored tear top cartons for an attractive presentation

Swivel Lok® and 90 Degree Connectors Compliances

-  - Standard 514B
-  - C22.2 #18

LIQUIDTIGHT CONDUIT AND CORD CONNECTORS NONMETALLIC - EXTRA FLEXIBLE TUBING AND CONNECTORS

Applications

- For use in dry or wet locations when the conduit and fittings are not subject to physical damage
- Use extra flexible tubing and connectors whenever added flexibility is required for installation, operation, or maintenance

Product Features

- All black nonmetallic construction ends metal fatigue and separation problems
- Conduit cuts cleanly - speeds installation and ends the worry of jagged edges
- Each connector is supplied with a Neoprene O-ring and nylon gasket

Compliances

-  - Recognized (tubing)
-  - C22.2 #18 (tubing & fitting)
-  - Standard 514B (fitting)

LIQUIDTIGHT CONDUIT AND CORD CONNECTORS

NONMETALLIC - 90 DEGREE CONNECTOR FOR EXTRA FLEXIBLE TUBING AND CONDUIT CONNECTOR KIT WITH SWIVEL-LOK® MULTI-POSITION CONNECTOR

90 Degree Connector and Conduit and Conductor Kit Application

- For use in wet or dry locations when the conduit and fittings are not subject to physical damage

90 Degree Connector Application

- Use extra flexible tubing and connectors whenever added flexibility is required for installation, operation or maintenance

Conduit and Connector Kit Application

- Use these conduit and connector kits whenever flexibility is required for installation, operation, or maintenance

90 Degree Connector Product Features

- All black nonmetallic construction provides corrosion protection
- Each connector is supplied with a Neoprene o-ring and nylon gasket

Conduit and Connector Kit Product Features

- All gray nonmetallic construction ends metal fatigue and separation problems
- Each kit contains all components necessary for installation — no need to worry about mismatched components
- Convenient to use
- These conduit and connector kits are ideal for air conditioners, swimming pools, lighting, hot tub and heat pump installation
- UPC bar coded fittings are individually polybagged with a preprinted UPC-A bar code and packaged in pre-scored tear top cartons for an attractive presentation

LIQUIDTIGHT CONDUIT AND CORD CONNECTORS STEEL/MALLEABLE IRON - STRAIN RELIEF CORD CONNECTORS

Applications

- For use in wet or dry locations to provide a liquidtight and strain relief termination for flexible cord and cable
- These liquidtight strain relief cord connectors are suitable for use in Class 1, Division 2; Class 2, Division 1 and 2; and Class 3, Division 1 and 2 hazardous locations

Product Features

- All steel/malleable construction provides mechanical strength
- Screw machined bodies (straights through 1") and precision threaded malleable iron castings mate with other components without strain or distortion
- Unique Neoprene grommet design — grommet is forced up and around the cord when the nut is tightened for a positive liquidtight seal
- Washers have size range imprinted for identification — eliminates misidentifying inventory
- Use locknuts and sealing washers to complete a liquidtight installation on a sheet metal box or panel
- All metallic components are zinc electro plated for corrosion protection
- UPC bar coded fittings are individually polybagged with a preprinted UPC-A bar code and packaged in pre-scored tear top cartons for an attractive presentation

Compliance

-  - Standard 514B

LIQUIDTIGHT CONDUIT AND CORD CONNECTORS ALUMINUM - STRAIGHT STRAIN RELIEF CORD CONNECTORS

Applications

- For use in wet or dry locations to provide a liquidtight and strain relief termination for flexible cord and cable
- Aluminum liquidtight strain relief cord connectors are suitable for use in Class 1, Division 2; Class 2, Divisions 1 and 2; and Class 3, Divisions 1 and 2 hazardous locations

STRAIGHT CONNECTORS
ALUMINUM

Product Features

- Aluminum construction provides a corrosion-resistant installation
- Patented Gotcha® ring incorporates a split hinge design to prevent friction and to provide strain relief
- Neoprene grommet
- Knurled compression nut allows the fittings to be hand tightened to UL requirements
- Gotcha® ring is color-coded for sizing identification
